Other Acknowledgments

Portions of the Forcepoint Network Security Platform solution include or may include the open source components listed below.

Some third-party software included in the products below may be licensed under certain copyleft open source license(s) such as the GNU General Public License, where such specific license terms entitle you to the source code of such software. If you would like a copy of the source code for such third-party software, you may email your request to opensource@forcepoint.com.

Product name change

The Forcepoint Network Security Platform 7.1 release has introduced change to product and component names. For more information about the change to product and component names, refer to the **About this Help** section in the *Forcepoint Network Security Platform Product Guide*.

**Important**

- 1) Some documentations, knowledge base articles, and other support information are still using the old product name.
- 2) There is no change in the Engine local user interface.
- 3) The IPS role has transitioned now from L2FW mode to L3FW mode.

Deprecated features

The following features are no longer supported:

- SSL VPN Portal.
- Web Portal User Interface is deprecated and is not available by default.

For more information on deprecated features, refer to the **About this release** section in the *FlexEdge Secure SD-WAN Manager 7.1.0 Release Notes*.

Forcepoint Network Security Platform Security Engine

Portions of Forcepoint Network Security Platform include or may include the open source components listed below.
