Introduction

Now, our ML supports out of the box:

Classification

1. Public, Internal, Confidential
2. Public, Internal, Confidential, Highly Confidential
3. Non-Business, Public, General Business, Confidential, Highly-Confidential

Custom labels that are: Marketing - Restricted, are handled via a process of issuing a custom ML model (docs attached). Now, we are working on adding this functionality to the UI.

[GS-TagsetStructureSpecification-070622-1545.pdf](#)

[GS-TagsetRefinementProcess-070622-1546.pdf](#)

Compliance labels

1. PII - ML out of the box
2. PHI - Model is ready, deployed in certain customers, GA ready by November (the date can change)
3. PCI - Model is in dev.
4. PI (personal information, to be differentiated with PII personal identifiable information) - Model is in dev.
5. CMMC, EAR, ITAR - model is ready, deployed in certain customers, GA ready in Q2 2023 (the date can change)
